Dimensions include the top.

- The vanity top overhangs the cabinet front and sides.
- Some size variation may occur in the Ceramic tops. They will never be less than the width of the cabinet which is indicated in the description.
- All vanities have a 40mm hole for waste fitting as per NZL plumbing standards.
- Ceramic tops have a pre-formed hole for a mixer tap to be installed
- Acrylic tops can have either a mixer or separately plumbed taps and therefore are not pre-formed.
- Handles are included with vanities and towers
 - Acrylic vanities have a 96mm Bow handle
 - Shaped bowl, 1drawer ceramic vanities and towers have a 96mm D handle.
 - HiGloss 3 Drawer vanities have a 126mm handle
- HiGloss 3 Drawer vanities have white gloss melteca sides and toekicks.
- 1 drawer wall hung vanities have 2 internal drawers to allow for plumbing.
- Wall hung vanities require very secure installation. See installation document in pack for details
- Mirrored cabinets have solid backs for secure installation to wall studs.
- Single mirrored cabinets are reversible to open left or right as required.

All drawers have metal sides and 16mm moisture resistant bases.
